**Swiss Mountain Coffee**

Good for the Consumer  
Good for the Farmers.  
Good for the Environment.

Swiss Mountain Coffee strives to choose coffee beans that are sustainably grown without the use of harmful chemicals or pesticides. We work with farmers who participate in Direct Trade. This allows farmers the opportunity to pay their workers above the usual minimum wage, which in turn, helps to provide a better lifestyle for the workers by improving their homes and educating them on issues such as diet. These farmers are committed to growing the finest beans, in a healthy and chemical-free environment, thereby creating an exceptional product while keeping in harmony with nature and the entire community.
